Re: Regulation of Dietary Supplements.

I am a registered dietitian and would like you to address / ensure the following concerns:

- ① The contents of the products are pure - contain no surprises
If different potencies - label as such
- ② Unsubstantiated health claims removed from labels
and advertising
- ③ Labels list common foods that contain the primary ingredient.
Often - food and its other nutrients are key to ④ health
This would encourage a healthful eating plan.
- ④ Oversee research on the benefits of supplements.
- ⑤ Make clear statements about who needs what supplements.
